Offer your patients a better sleep
The Simple Sleep Solution
Offering sleep appliances in an efficient and patient-friendly way will:

- Build a long-term relationship with your patients
- Streamline workflow
- Decrease time to treatment
- Eliminate appliance failure
- Eliminate guesswork
- Drive profitability
- Increase referrals
- Differentiate your practice

Did you know?

In a typical dental practice of 2,000 adult patients:

- 500 will have some form of sleep disordered breathing
- 100 will be diagnosed with illness
- 400 will be undiagnosed

“My MATRx plus™ experience has been life-changing. The system was easy to use and the tablet’s user interface was very intuitive. Now that I have the oral appliance, I no longer snore, and I wake up feeling rested and energized.”

Brent Fulmek, Patient

“The predictive value of MATRx plus™ is huge. Before a sleep apnea patient goes through the process of getting an oral appliance and paying for it, they know if it’s going to work for them.”

Dr. Mike Parchewsky, Terra Dental Care
The simple, 3-step sleep solution

**Visit 1**
(20 minutes)

- MATRx plus™ dispensed for sleep test at home
- Cloud-based connectivity streamlines study analysis, interpretation and reporting

**Visit 3**
(20 minutes)

- Custom oral appliance fitting at MATRx plus™ target protrusion
- Use and care information reviewed with your patient

**Visit 2**
(20 minutes)

- MATRx plus™ results are reviewed with the patient
- Digital scan completed
- Trays are converted to a temporary oral appliance - patients are treated immediately
- Custom oral appliance ordered

**The MATRx plus™**

The easy-to-use home sleep testing system that runs on a dedicated tablet. Through a computer-controlled cloud based app, the patient follows a step-by-step video instruction process. The study is sent directly to your office before the patient returns.
Helping people live healthy and productive lives by sleeping better
